

When I decided to go to school, back in 2003, I knew I wanted to get a degree that pertained to children so, I graduated with my Associates Degree, in 2006, with a major in Early Childhood Education. Shortly after graduating, I had my son and chose to stay home to raise him fulltime. However, after becoming a single parent and moving from Arizona to Utah, I had to find a job that would allow me to be a mom and an employee. 'The Winner School' has done just that and I love working here & the people I am able to work with. I am looking forward to working with the Rockets this year and seeing them learn and grow!

I thoroughly enjoy working with children and being able to witness their joy and excitement for life and learning. Their attitude about life is refreshing and I believe there are many things we, as adults, can learn from kids. I enjoy watching their eyes light up as they discover something new or the smile on their face as they express their excitement for something they are proud of. Children are such a joy and are definitely professionals at keeping adults on their toes!!

My name is Jami Haban. I am 26 years old & widowed. I have one AMAZING little boy, named Kason. I love living in Utah and the experiences it gives me. I am grateful for my friends and family. I love sports, music and traveling ... as well as new experiences. Life is what we make it and we can find the joy in any situation if we allow ourselves to!
