

Miss Julie

I am so excited to begin my fourth year teaching the 3 Yr. old class at The Winner School. I have enjoyed working so closely with this young age who are all on the verge of independence through exploration of their environment. Because we are able to provide a safe and secure feeling in our classroom, the children learn quickly that this is where they can try new things for the first time, in many cases, and begin to build on their bank of knowledge. Because this is such a positive environment, we only have good days! I am ready for a great new year.

I have two grown children, a son and a daughter. My son is an anesthesiologist in Park City and Salt Lake City and my daughter lives in Seattle, WA. She is a marine biologist who travels to Barrow, Alaska in the summer months to conduct the aerial surveys of the Bowhead whales in the Arctic Ocean. My husband, of 38 years, is Gary and we live with our two black Labrador Retrievers who have become our children. We enjoy a great life of fly fishing, hiking and biking the Wasatch and Star Valley, Wyoming. We love cross-country skiing in the winter and watching our two black "kids" (our dogs) roll in the snow.

Let's have a wonderful year!

Education: Bachelor of Arts Degree, Westminster College
December 1993, Cum Laude
Salt Lake City, Utah
Major: Early Childhood Education
Minor: Art
