

My name is Mikale. I have worked at The Winner School since February of 2010. I am truly excited to come to work every day. I love being able to teach your kids and I really enjoy this age group. There is nothing more special to me than teaching your child about everyday life skills. To see the light bulb turn on in their heads is awesome! I believe that our school is the best in the valley. No other school puts as much time and care into their curriculum as we do! I am so proud to work at The Winner School, and look forward to meeting your and your child!
